

Hi Lauren, Hi Randy,

I just wanted to say thank you for the way you guys have gone about helping me set up the new website. Even though it is still in its infant stages and is a work in progress, I was pleasantly surprised to see that I am already showing up on the 3rd page of the Google search and you just launched the website a few days ago. I do appreciate your work and professionalism. Keep up the good work and I do wish you both and your staff a great 2013.
